## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 1-5 and 15 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach or suggest one or more of the limitations found in independent claims 1 and 15. U.S. Patent No. 6,512,496 to Alexeff et al. and U.S. Patent No. 6,856,297 to Durham et al. both teach similar prior art systems. However, with respect to independent claim 1, Alexeff and Durham, as well as the other prior art of record, fails to teach or suggest the combination of an inflatable body; at least one antenna element disposed on the outer surface of the inflatable body; and a plurality of support structures passing through portions of the inner surface and supporting and connecting the inner and outer surfaces, and providing a signal connection for the at least one antenna element. With respect to independent claim 15, Alexeff and Durham, as well as the other prior art of record, fails to teach or suggest the combination of an inflatable body; at least one antenna element disposed on the outer surface of the inflatable body; and a plurality of structures passing through portions of the inner surface and supporting and connecting the inner and outer surfaces, and providing a signal connection for the at least one antenna element. Therefore, independent claims 1 and 15, as well as all respective dependent claims, are allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
